

For Immediate Release

Managed Business Solutions certified as HP Trim Consultants

Colorado Springs, Colo., Nov. 1, 2010 Managed Business Solutions (MBS), received its certification by Hewlett-Packard as an official team member of the HP Trim (Total Records Information Management) solution set.

“Being able to add HP Trim technology to our pool of expertise will help us to address the growing records management needs that our customers are asking us about” said Norbert Kriebel, Sr. Marketing Manager for MBS. “The ability to embrace and extend SharePoint capabilities is a strong value proposition to many of our clients.”

HP TRIM is the well known Document and Records Management (DRM) solution from HP. It is based on Microsoft technology and integrates into many desktop and server products from leading providers of Enterprise Content Management (ECM). Additionally, HP TRIM’s modular design can include workflow, archival management, space management, and Web Content Management (WCM) and can be delivered to users as both a Web or 'rich' client interface. HP TRIM has been approved by The National Archives (TNA) and has achieved certification under the US Department of Defense (DoD) 5015.2 standard.

“We were really impressed by how engaged HP’s professional staff have been with us and how quickly they have responded to developing our knowledge of their TRIM software suite”, says Russell Lopiccolo, director of sales and marketing for MBS.

About Managed Business Solutions

MBS is an Alaska Native-owned company, focused on delivering high quality Business Technology and Consulting services to commercial and Federal sectors, under the principal of maximizing value for investments. Our accumulated Experience, Knowledge Capital and Skilled Resources allow compliance officers and their record management teams to benefit from business driven technologies without the unpredictable budget variances and operational disturbances that often come with deploying complex IT investments and strategies.
